

Giving Service a New Name

Elan One Card Program

In today's global marketplace, companies are more diverse than ever in how and where they do business. Therefore, it is especially important to find simple solutions that bring corporate expenses back into tight control and promote efficient management. That is what the Elan® One Card from Elan Financial Services is designed to do.

Simplify the payment process and reduce costs with the Elan One Card program

Taking a trip to see a valued client. Workstations for new hires. A color printer to make proposals stand out. Using purchase orders to pay for these and other typical business expenses is time-consuming and, worse yet, expensive. Clients who implement a one card payment program can consolidate purchasing transactions and travel and entertainment (T&E) expenses into one easy program that speeds purchases, minimizes paperwork and improves their bottom line.

In fact, Elan clients have saved as much as \$73.53* per transaction by implementing the one card payment program. Multiply that by the hundreds or even thousands of purchases made every year and the savings are significant.

The one card does it all

Managing travel and purchasing transactions with just one process, one staff, one card issuer and one invoice is a reality with the one card. The one card empowers your organization to merge separate card solutions, increase efficiencies and decrease costs across all platforms. Moreover, with the one card, you have the ability to offer employees unsurpassed flexibility without sacrificing control.

The power and control companies need to effectively manage a payment program

Your organization can count on the one card to help control spending, provide purchasing flexibility for employees and protect against employee misuse.

Unparalleled acceptance and support

The one card provides your organization access to the worldwide Visa® network, ensuring cardholders are able to purchase goods and services when and where they need them. Plus, it makes business expenses easier to monitor, control and manage thanks to superb administrative tools and advanced customer service.

Greater risk control and protection

The Visa Liability Waiver program protects your organization with up to \$100,000 per cardholder, for fraudulent use or misuse of the card by employees.

Billing options that help cut waste, improve control and increase flexibility

Elan provides two efficient billing options that give you the power to eliminate unnecessary costs, maintain control and provide employees with greater flexibility.

Supplier management solutions	Identify and develop opportunities with strategic suppliers
Automatic travel accident insurance and emergency travel services	Provide added security for employees

Leverage data with Access® Online

Elan offers Access Online, a robust card program management tool, which enables your organization to harness the data from your card program to better monitor and manage expenses. Access Online provides you real time access to your commercial card program anywhere, anytime, within a secured online environment. Access Online was developed collaboratively with clients to simplify the management and reporting of their card program with a single, easy to use tool.

Major functionality includes:

Account Setup and Maintenance –

Offers 24/7 access so you can set up or cancel card accounts, update information, adjust spending limits in real time or transfer employee accounts between departments.

Transaction Management –

Simplifies accounting processes by allowing you to view, review, dispute and reallocate transactions online, then route transactions for review and approval using workflow.

Payment Plus – Automates the payment process and increases visibility to more payables activities across your organization.

Management Reporting – Generates reports that can help you manage supplier relationships and negotiate discounts, monitor compliance with organizational policy and more easily analyze spending across organizations.

Financial Extracts – Provides data extracts for simplified reconciliation and full integration into your financial systems.

Save time and money by automating one card expense management processes

Visa IntelliLink Spend Management is a comprehensive, data-rich, simple-to-learn and easy-to-use electronic expense reporting solution that can automate your company's expense management and reporting process. Elan One Card T&E expenses are effectively managed from expense report preparation to approval, providing significant savings in time and money while increasing compliance.

Better understanding and control of expenses

Managers have on-demand access to expense information to help improve expense business decisions. This is accomplished through a solid understanding of spending patterns which increases control over spending while identifying cost-saving opportunities.

Ready access, easy-to-use, cost-saving solution to improve expense management

Employees get anytime, anywhere expense reporting to easily prepare and submit expense reports. Visa IntelliLink Spend Management can integrate data directly into your in-house accounting and general ledger systems. This allows your organization to eliminate costs associated with paper-based transactions and gain expanded analysis capabilities which enable trending and cost analysis that can improve supplier negotiations.

Implement a one card program in three easy steps

To implement a one card program, please follow these three steps:

One – Complete, sign and submit the one card application (while including all required documents).

Two – Provide the last one to three years' financial statements*. If the statements are older than five months, interim financials are required.

Three – Discuss complete program set-up and training requirements with an Elan implementation project manager.

The entire implementation process – from application to receipt of cards – takes approximately six weeks based on a standard one card program rollout.

* Number of years required is dependent on your organization's proposed credit limit..
