

# Payment Plus

## Improve your bottom line with Payment Plus

By replacing checks and paper-based processes with virtual accounts, Payment Plus streamlines payments to provide cost-saving solutions.

- Automate payment and simplify reconciliation
- Reduce processing and operating costs
- Increase control and security
- Gain superior spend visibility and reporting
- Enhance cash management – including revenue-share opportunity

**Vision**  
**Flexibility**  
**Control**

### A real-time, 24/7 web-based payment solution

At no cost to you, Payment Plus provides tools, resources, flexibility and a dedicated Supplier Enrollment team to help you reduce payment costs, increase efficiencies and even generate rebate revenue. Not only does this decrease your overhead and staff time, automated reporting provides comprehensive tracking and monitoring of your payments.

### Enhance payment security and control

Payment Plus cardless account numbers can be set to a specific supplier, date range and payment amount. Payments are processed only after you approve them, so you have complete control over your accounts payable process.

### Rely on our dedicated Supplier Enrollment team

Our experts will customize solutions to meet your goals, enroll suppliers, provide ongoing support and help you maximize the value of your program.

### Redefining payments for today's business
